### house leather care

protect from direct sunlight, heat and weather. dust with a clean dry cloth or use the soft brush attachment on your vacuum cleaner. remove all liquid and food spills immediately. wipe with a clean cloth dampened with proprietary brand leather cleaner suitable for a surface finish leather.

### velvet

all spills must be actioned right away- blotting the area immediately with a clean, dry absorbent cloth. never bleach, tumble dry, machine wash or iron. have velvet upholstery professionally cleaned according to the velvet suppliers' recommendations. to remove dust, vacuum regularly using low suction and soft brush attachment or using a soft lint brush.

### cotton & polyester

protect from direct sunlight. vacuum regularly using low suction and soft brush attachment. professionally clean in accordance to the fabric suppliers' instructions. treat spills and stains as soon as possible with a clean damp cloth. dry in the shade, allow to dry thoroughly before use.

### custom specified upholstery

please refer to individual suppliers for information on care and maintenance of fabrics that have been specified by a designer, as these will be outside the standard grazia&co range. most interior upholstery fabric should be regularly vacuumed and kept away from direct sunlight.

### sheepskin

store away from direct sunlight and high heat sources, such as blow dryers and radiators. never rub or brush sheepskin when it's wet. to clean up small spills on your sheepskin upholstery, wipe with a damp cloth, and gently pluck any debris from the suede with tweezers. never use hot water. this causes permanent damage by stripping the natural oil, (lanolin) from the pelt making it very hard and rough. for professional cleaning, select a cleaner that specialises in leather/suede/fur.
